
Title: The Truth of Aragothias

Author: Sage Arianna

Aragothias,
(Aa-r-a-go-thi-as):

In this tome I shall
seek to uncover
some of the
myth and legend
of this great
evil power. I
must warn you
that very little
is known after
such horrid
events that have
transpired in
my own
generation....

There is nothing
known of how or why
this great power was
created and put to
form...why this evil
force has been
brought to our
world...It is known
that he came from
Hythloth, but what is
secret is that while he
came from that horrid
place it was not
always soo...before
the gateway was
opened it was a much
different place.

Aragothias first took
the body and soul of a
Great Lord of our time
who he promised not
only more power but
immortality to
sickness and old
age...When the Great
Lord accepted him as
his vessal he became
part of our existance
and was no longer
accepted in his own

home.. that of
Hythloth. The Great
Lord became Lord of a
great hall high above
the land in a keep on
Covetous Mountains.
His power extended to
great length and was
found to be a great
danger to not only
Humans but to all
beings who embraced
the light as opposed to
darkness.

Aragothias saw his
greatest threat not
among mankind but
from the skies above
him, the mighty
dragons... He invaded
their lairs, their
homes, their
conclaves... where
once was a healthy
great relationship was
mistrust and deciet...

This is when and
where the Corps of
Kortia was born...
they have spread
propoganda across the
land against the
dragons persuading
Humans to betray the
hiding places and lair
of the Dragonkin...

The Dragons Saught
not a direct battle with
the minions of
Aragothias but 100 of
the oldest and wisest
Dragonkin surrounded
the keep of Aragothias
and cast a most
destructive spell...

100 words of..."In
Vas Por"Filled the air
and the keep of the
Great Lord Aragothias
was no more.I write
this book on the
occasion

that.....*looks to have
been ended in a hurry
as the handwriting is
smudged with undried
ink**Extreamly
hurried

handwriting*I must
hurry, the Corps of
Kortia have sought to
remove all record of
Daemon of
Aragothias... It is said
that they wish his
name never to be
spoken... I hide this
book away so that it
may be spared from
the flames of Kortia
and that some record
will be kept... he is
still buried up there
in the mountains... it
is said there is great
power in the name of a
daemon... Know this
then...Aragothias is
the name of the Great
Lord whom the
Daemon promised the
Vile Gift to... The
True name of that
daemon is
Phakebrus...I now
hide this book in a
safe place away from
the Corps... I hope this
does some...
